Eating disorders often significantly disrupt daily routines, roles, identity, and participation in meaningful activities, as symptoms can occupy a substantial amount of time and mental energy. This group focuses on how people engage in daily life, including how they care for themselves, allocate their time and energy, and reconnect with meaning, purpose and joy beyond the eating disorder. Using an Occupational Therapy lens, the group explores the dynamic interaction between the person, their environment, and their daily activities (occupations). Sessions will focus on self-regulation, routine, values, identity, self-compassion, and engagement in meaningful activities that support recovery and overall well-being.

When: Thursdays, 5:30-7pm

Offered: 6 sessions, Oct 8 – Nov 12, 2026

Location: Online (via Zoom)

Facilitator: Natasha Prokopchuk (she/her), OT

(C) ARFID (Avoidance Restrictive Food Intake Disorder)

In this mini-series, we will explore the needs and experiences of those with ARFID and ARFID-related traits which often go unseen and unsupported. Sessions will consist of a combination of information sharing, group discussion, and brainstorming. Themes will include the types of ARFID, a neurodivergent-affirming approach to ARFID, navigating relationships and social settings, building supportive eating environments, sensory needs, treatment considerations, and redefining ARFID recovery. This group is not for caregivers, friends, or family members of people with ARFID; it is for people who experience ARFID or ARFID-related traits as part of their own lived experience.

(C) Mindful Approaches To Managing Cravings & Emotional Eating

Food is deeply emotional, intertwined with the highs and lows of our lives, often offering comfort but sometimes leading to challenges. This group offers a safe and supportive space to explore the connection between our emotions and cravings, understand the learned eating behaviors that shape our relationship with food, and discover mindful approaches to managing cravings and coping with emotions effectively.

Location: Online (via Zoom)

Facilitators: Yasmin Dadollahi (she/her), MHSc, RD & Giselle Segovia (she/her), MHSc, RD

Note: Language guidelines will be amended in this group to allow for relevant discussion.

Workshops

(WS) Gentle Nourishment: Cooking and Planning For One

Rebuilding a relationship with food often includes learning how to shop, plan, and cook in supportive, manageable ways. This session explores gentle meal planning, grocery shopping with ease, and simple strategies for building balanced meals when cooking for one. The focus is on structure, variety, and self-compassion — not perfection — to help make food feel less stressful and more approachable during recovery.

When: Monday, 6:30-8pm

Offered: 1 session, Oct 5th

Location: Online (via Zoom)

Facilitator: Giselle Segovia (she/her), MHSc, RD

Note: Language guidelines will be amended in this group to allow for relevant discussion, including of specific foods.

Workshops (cont.)

(WS) ED Voice Vs. The Self

Many people in recovery describe their eating disorder as having a distinct “voice”—one that is critical, demanding, and often convincing. This workshop introduces participants to the concept of the ED voice as separate from their authentic self. Through gentle education and reflection, participants are supported in recognizing when the ED voice is present, understanding its function, and reconnecting with a more compassionate, values-aligned sense of self. The workshop emphasizes awareness, choice, and self-understanding rather than change, control, or elimination of thoughts.

When: Wednesday, 6-7:30pm

Offered: 1 session, Nov 4th

Location: Online (via Zoom)

Facilitator: Colleen Smith (she/her), RSW
